

Brainstorm and idea prioritization

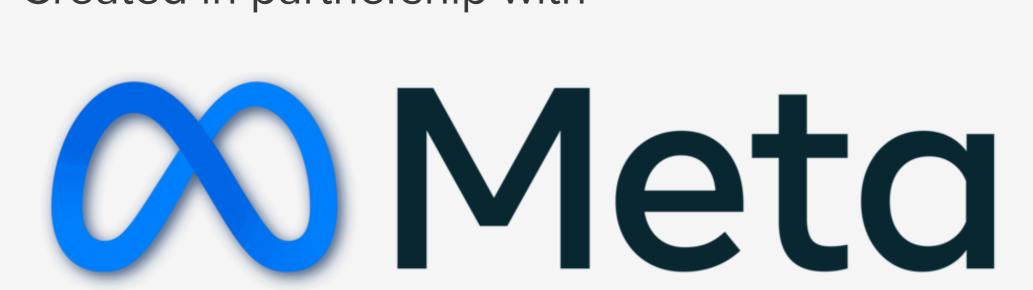

Brainstorm and idea prioritization for Industry-specific intelligent fire management system.

15 minutes to prepare

30-60 minutes to collaborate

3-8 people recommended

Created in partnership with

Problem statement:

Many industries are sometimes met with fire accidents, where they loss their properties ,belongings and even sometimes lives . To reduce this problem fire detection and alarming system is used.

5 minutes

PROBLEM

To detect the presence of fire and toxic gas leakage in industries using IoT technology and prevent the loss of life and properties by deploying the IoT based Fire management system
